The Education and Training Inspectorate  
Promoting Improvement

Providing inspection services for:

Department of Education  
Department for the Economy  
and other commissioning Departments

CUSTOMER  
SERVICE  
EXCELLENCE

## **Introduction**

The previous inspection in October 2016 evaluated the overall effectiveness of Ballylifford Primary School as having a high level of capacity for sustained improvement. Since the inspection, the enrolment has increased and currently stands at 74. The school is engaged in a shared education partnership with a controlled primary school. A sustaining improvement inspection (SII) was carried out on 21 October 2019.

The trade unions which make up the Northern Ireland Teachers' Council (NITC) have declared industrial action primarily in relation to a pay dispute, and also workload and other management issues. The industrial action includes non-co-operation with the Education and Training Inspectorate (ETI). Prior to the inspection, the school informed the ETI that none of the teachers would be co-operating with the inspection. The senior leadership co-operated with the inspection in relation to safeguarding responsibilities. The ETI has a statutory duty to monitor, inspect and report on the standards of education and professional practice among teachers under Article 102 of the Education and Libraries (Northern Ireland) Order 1986. Therefore, the inspection proceeded and the following evaluations are based on the evidence as made available at the time of the inspection.

## **Focus of the inspection**

Owing to the school's participation in industrial action:

- the inspection was unable to focus on evaluating the extent to which the school is capable of demonstrating its capacity to effect improvement through self-evaluation and effective school planning; and
- a line of inquiry was not selected by the school from the development plan priorities.

## **Key findings**

- A group of year 6 children spoke positively about their learning across the curriculum and discussed a range of strategies they use to reflect on and improve their work. They highlighted their enjoyment of extra-curricular activities and the shared education topic work, which provides them with the opportunity to make new friends. The children explained the important roles and responsibilities they carry out as 'anti-bullying ambassadors,' 'digital leaders' and as members of the school- and eco-councils.
- It will be important that the employing authority, school governors and the staff plan for, and manage, issues related to the sustainability of the school provision and school budget in order to address the current and future needs of the children and the staff.

The ETI was unable to evaluate fully:

- a line of inquiry; and
- the quality of learning and teaching within the classrooms.

## **Safeguarding**

During the inspection, the school provided evidence that the arrangements for safeguarding children reflect broadly the guidance from the Department of Education. The children report that they feel safe in the school and that they are aware of what to do if they have any concerns about their safety or well-being. However, owing to the action short of strike, the ETI was unable to evaluate fully the outworking of the arrangements for safeguarding in the school.

## **Conclusion**

Owing to the impact of the action short of strike being taken by the staff, the ETI is unable to assure parents/carers, the wider school community and stakeholders of the quality of education being provided for the children. The school is a high priority for future inspection with no further notice.
