Friday 21<sup>st</sup> August 2020

Dear Parents / Carers,

***Further Reopening Information: This information is in addition to our previous correspondence on reopening.***

Thank you for your continued patience regarding plans for this academic year 2020-2021. I hope you and your family are well and are having opportunities to enjoy the remainder of the summer break.

Following the latest guidance from the Department of Education (Thursday 13<sup>th</sup> August) entitled 'New School Day' allowing all schools to return fully from September, please find below additional information you will need for your child/children returning to school outlining the structures and arrangements that we will be putting into place for the safe return of both our pupils and staff.

The arrangements have been discussed and approved by the Board of Governors and follow all the latest guidance to schools. I assure you that in making our arrangements, key considerations were and remain hygiene, safety, health and well-being of the whole school community. The Board of Governors have been actively considering all options as to how they can open the school safely for both pupils and staff.

Whilst we aim to follow the plan explained below as we reopen our school, it is important to highlight that all measures will be under review by the Principal and staff. This may be subject to change depending on the Department of Education issuing further guidance.

As the COVID-19 virus is still present and continues to have other implications on our everyday lives, it is important that we retain a degree of flexibility within our planning so that we can deal with any issues that may arise as we return to school.

There will be many changes to our school life, with our priority remaining the health, safety and well-being of all pupils, staff and school community. We are following the guidance and doing what we can to keep everyone safe and minimise the risks that we have identified. This will only be successful if we all play our part. We hope that these changes, whilst necessary, will still allow our pupils to have an enjoyable experience upon their return to school.

## **HEALTH AND SAFETY / COVID-19 PREVENTATION / PERSONAL HYGIENE**

We consider the Health and Safety of our pupils, staff and wider school community to be of utmost importance. In line with Government suggestions, we have put the following measures in place.

### ***SOCIAL DISTANCING***

- throughout the school building there will be signage to remind pupils, staff and parents of social distance requirements and hygiene practices to be used in school.
- It is important to remind parents/carers they cannot congregate at entrance or exit gates/doors. Adults should socially distance themselves from others.

### ***PROTECTIVE BUBBLES***

- With consistent class membership - limiting contact between groups of children is the main risk mitigation measure for children attending school. These groups will not interact with other groups within the school.

### ***LIMITING VISITORS***

- For everyone's safety, Parents and members of the public WILL NOT be allowed to enter into the school building unless in exceptional circumstances or by prior arrangement. Prior authorisation must be agreed by the Principal and it should be conducted safely, observing social distancing. This is of vital importance to protect and ensure the health, safety and well-being of everyone in our school and wider school community.
- If you need to speak to class teachers, we ask that you do so by telephone. We ask for your full co-operation with this requirement and please understand this is for the safety of all.
- We would like to make parents aware that if their child needs to be accompanied to school, only **one** parent should attend.

### ***SANITISING STATIONS***

- Sanitisers will be placed at the main entrance, exit doors and all classroom doors. Children will be encouraged to use the hand sanitiser as well as full hand washing throughout the day.
- We would also encourage children to bring their own individual sanitiser which will remain in school.

### ***REGULAR HANDWASHING***

- Promotion of regular and thorough attention to hygiene through regular hand washing and good respiratory hygiene, following the "Catch it, Bin it, Kill it" approach.
- Children will be requested by staff to wash their hands regularly throughout the school day.
- Children will wash their hands when they enter the classroom and will continue to wash their hands throughout the day e.g. before eating their break, when returning from outside after break, before eating their dinner, when returning from outside after dinner, before and after P.E, when requested to do so and before leaving at the end of the school day.
- It is essential that all children are reminded of the significance of personal hygiene as they return to school, particularly around the importance of regular handwashing. We encourage you to continue practising with your children the washing of hands for at least 20 seconds using liquid soap and water and drying them thoroughly.

## **INDIVIDUAL LEARNING PACKS**

- Children will only use their own personal equipment such as pencils and colouring pens/crayons. Parents will be asked to supply these at the start of the year in a wipeable pencil case and they will remain in school.

## **STAFF PPE**

- School staff may wear PPE (such as visors, aprons or gloves) if they are required to work in close proximity with a child or to perform first aid if required.

## **COVID-19 SYMPTOMS**

- If your child is displaying any of the symptoms of COVID-19, they should remain at home and follow the latest Public Health advice.

### ***Symptoms of Covid-19 include:-***

- **a high temperature** – this means you feel hot to touch on your chest or back, or;
  - **a new, continuous cough** – this means coughing a lot for more than an hour, or 3 or more coughing episodes in 24 hours (if you usually have a cough, it may be worse than usual), or;
  - **anosmia** - the loss or a change in your normal sense of smell (it can also affect your sense of taste)
- If any child presents as unwell, the school has a non-contact thermometer which may be used. The child will be brought to an individual room where they can wait in isolation with a member of staff while medical advice is sought, and parents/guardians contacted. The staff member will remain with the child until collected.
  - Parents will be advised to follow the PHA guidance for households with possible coronavirus infection. If you have symptoms of coronavirus infection (COVID-19), however mild, do not leave your home for 10 days from when your symptoms started. This action will help protect others in your community while you are infectious. If you live with others and you or one of them have symptoms of coronavirus, then all other household members must stay at home and not leave the house for 14 days. The 14-day period starts from the day when the first person in the house became ill.
  - If there is a confirmed case of someone in the school having the COVID-19 Virus, the school will follow the Department of Health's 'Test, trace and Protect' strategy. Therefore, the name and contact details of everyone who enters the school building will be recorded, including school staff, pupils, parents and visitors. More information is available on the gov.uk website

We know that this is a lot of information and it is frustrating living at such a time of uncertainty where guidance is rapidly evolving. All arrangements will be kept under review and any changes or further guidance will be communicated to you as and when appropriate and/or necessary. I hope this information will assist you and your family in making arrangements. We would like to thank you for your understanding, patience and continued support at this time. The staff of Ballylifford look forward to meeting the children again as we embark on a new school year.

Yours sincerely

Mr Ciaran McElroy  
(Principal)
